TRADE

Bulk · FOB
/ CIF

An established Indian company, exporting spices to spec.

Excellar Global is the spice-export arm of **Excellar Labs Pvt Ltd** — an incorporated Indian private limited company with a track record of operating to standard and to documentation. We source whole and ground spices from India's spice heartland, screen every lot at NABL-accredited laboratories, and ship them documented and clean — the way your buyers and your regulators expect.

We are a **merchant exporter**: we source, select, test, document and deliver. Our value to you is reliability — the right spec, a clean certificate, correct papers, and a shipment that clears without drama, every time.

COA

EVERY LOT

A NABL-accredited certificate of analysis travels with every shipment — residues, contaminants and dyes documented, not assumed.

#1

SPICE STATE

Sourced across Madhya Pradesh and neighbouring belts — India's leading spice region — through established mills and mandi suppliers.

FOB / CIF

CLEAN PAPERS

Quoted FOB or CIF to your named port, with correct incoterms, packing and documentation set in the proforma invoice.

01 The right spec

We quote the standard Indian export grade for each SKU — and to your buyer's spec: mesh, colour, moisture and packing. Exact numbers are confirmed against the supplier COA before they reach any contract.

02 Proven, not promised

Every lot is screened at a NABL-accredited laboratory for residues, dyes and contaminants, and the certificate of analysis ships with the goods. Proof you can hand to your customs bench.

03 Sourced at origin

Bought through established mills and mandi suppliers in India's spice heartland, and qualified on one test: a clean COA. A supplier who can't pass one isn't a supplier — however cheap.

Reliability you can hand to your customs bench.

Your buyers ask you for proof; your regulators ask for paperwork. We hand it to you with the goods — the right spec, a clean certificate, and correct documentation — so a shipment clears without drama. That is the whole job of a good merchant exporter, and it is what we do.

WHAT YOU CAN COUNT ON

Tested every lot

Screened at NABL-accredited labs for EtO, multi-residue pesticides, aflatoxin and heavy metals — chilli additionally for Sudan dye.

Documented & clean

COA plus the export paperwork your market requires, prepared correctly the first time.

Quoted to your spec

Standard export grade, or your buyer's exact mesh, colour, moisture and packing.

Sample-first

We send a representative sample and its certificate before you commit to a container.

From enquiry to documented shipment.

1

Enquiry & spec

Tell us the SKU, grade, volume and destination port.

2

Sample & COA

We send a representative sample and its lab certificate.

3

Proforma

FOB or CIF quote with incoterms, packing and lead time.

4

Ship & document

Lot screened, COA and papers issued, goods dispatched.

We make no health, medicinal or wellness claims, and we quote standard Indian export grades that are confirmed against the supplier COA for your order before they appear on any contract.

A certificate with every lot.

Every lot we ship is screened at a NABL-accredited laboratory, and the certificate of analysis (COA) travels with the goods. You never have to take "clean" on trust — you get the document, and so do your buyers and your regulators.

WHAT WE SCREEN FOR — EVERY SKU, EVERY LOT

Ethylene oxide & pesticides

EtO and multi-residue pesticides screened to Indian (FSSAI) and strict international limits, so consignments clear inspection.

Aflatoxin

The storage-borne mould toxin that affects chilli and other spices — tested lot by lot.

Heavy metals & dyes

Heavy metals screened across the range; chilli additionally screened for Sudan dye and added colour.

Microbial & moisture

For shelf stability and export compliance across your destination markets.

Traceability

Every lot is tied to its origin and supplier. Tell us what you need documented for your market — origin region, packing declaration, market-specific certificate — and we'll provide it.

Standards & documentation

Excellar Labs Pvt Ltd operates to standard, with clean records. CIN and IEC appear in the site footer; FSSAI and GST numbers are provided on request and appear on every invoice. Market certifications are confirmed per order.

We do not claim a certification we do not hold. Specs shown in this catalogue are standard Indian export grades; exact numbers are confirmed against the supplier COA for your order.

Single Spices

I

Whole and ground single spices, sourced from named districts across Madhya Pradesh and neighbouring belts. Each is offered at a standard export grade and quoted to your buyer's spec — mesh, colour, moisture and packing. Every lot ships with a NABL-accredited certificate of analysis.

Turmeric

SOURCED VIA INDORE MANDIS

Whole finger and ground powder. High-colour, earthy and warm; screened for added colour and lead chromate.

Ground masala blends for export and diaspora demand — supplied to a standard house recipe or blended to your buyer's formula. Blends price on recipe and quality, and carry the highest value per kilo in the range. Every lot ships with its COA.

Garam Masala

HOUSE RECIPE / TO BUYER'S SPEC

A fragrant, layered blend of warm spices — the highest-value SKU in the range and the deepest export demand.

HS 0910.91 Recipe House / to spec

HIGHEST VALUE/KG

Sambar Masala

HOUSE RECIPE / TO BUYER'S SPEC

Built with roasted dal and curry leaf for a deep, South-Indian base — balanced heat and body for gravies.

HS 0910.91 Recipe House / to spec

EXPORT GRADE

Biryani Masala

HOUSE RECIPE / TO BUYER'S SPEC

Star anise, mace and nutmeg leading a fragrant, layered blend for rice and slow-cooked meat.

HS 0910.91 Recipe House / to spec

EXPORT GRADE

Chicken Masala

HOUSE RECIPE / TO BUYER'S SPEC

A bold, robust blend for chicken and meat dishes — strong demand across export markets and diaspora kitchens.

HS 0910.91 Recipe House / to spec

EXPORT DEMAND

Pav Bhaji Masala

HOUSE RECIPE / TO BUYER'S SPEC

A tangy, street-style blend finished with amchur — bright and punchy for vegetable dishes and snacks.

HS 0910.91 Recipe House / to spec

EXPORT GRADE

Chana / Chhole Masala

HOUSE RECIPE / TO BUYER'S SPEC

Dark and sour-spiced for chickpea dishes, with a deep, tangy finish — a staple blend with steady volume.

HS 0910.91 Recipe House / to spec

EXPORT GRADE

Blends are supplied to our standard house recipe or built to your buyer's formula and kept exclusive to you. Spice level, heat and colour are tunable to the destination market; every lot ships with its COA.

Dehydrates & Specialty

Dehydrated alliums and specialty items from the Malwa belt — export-commodity lines carrying the same clean-spec, NABL-tested COA as the spice range, in powder, granule and flake to your packing.

Dehydrated Garlic

MANDSAUR-NEEMUCH GARLIC BELT

Pure dehydrated garlic from India's garlic heartland — no fillers, no added starch. Powder, granule or flake.

HS 0712.90 Form Powder / granule / flake

NO FILLERS

Dehydrated Onion

SWEET-SAVOURY BASE

Sweet-savoury dehydrated onion for gravies, rubs and seasonings — even flavour without the moisture.

HS 0712.20 Form Powder / granule / flake

EXPORT GRADE

Onion-Garlic Blend Base

TWO-IN-ONE BASE · TO SPEC

A ready two-in-one base for gravies and curries — the two workhorse aromatics blended to your ratio.

HS 0712.90 Ratio To spec

CUSTOM BLEND

Kasuri Methi

DRIED FENUGREEK LEAF · MALWA

Dried fenugreek leaf, whole or crushed, for a distinctive finishing aroma. Clean, graded and fragrant.

HS 0910.99 Form Leaf / crushed

HS codes are indicative ITC-HS headings for classification guidance; the exact 8-digit code and all specs are confirmed on shipping documents per destination and against the supplier COA. Every lot ships with its NABL-accredited certificate of analysis.

Export-ready, and quoted to your buyer's spec.

Built for the importer

- ★ **Clean-spec by default** — every lot EtO- and residue-screened to strict international limits.
- ★ **Documentation done** — COA and the export paperwork your market requires, correct the first time.
- ★ **Sample-first** — a sample and its certificate before you commit to a container.
- ★ **Quoted to your spec** — standard export grade, or your buyer's mesh, colour, moisture and packing.

Markets we serve: the Gulf, West Africa, the UK and other markets with strong demand for authentic, clean-label Indian spice — with lanes added as they're confirmed.

Trade terms

We quote **FOB or CIF** to your named port. Incoterms, packing and lead time are set in the proforma invoice; terms are indicative and confirmed per order.

Buyers who want their own brand receive neutral or your-label packing to your artwork. Whatever the lane, the lot is screened, the COA travels with the goods, and the papers are clean.

From enquiry to documented shipment

Your buyers ask you for proof. We hand it to you with the goods.

Tell us the SKU, the volume and the market — we'll send back a sample, its certificate and a quote, and reply within one business day.

Start with a sample and its COA.

Send us the spice, the grade, the volume and the destination market. We'll come back with a representative sample, its certificate of analysis, and a quote — before you commit to any order.
